

# Reduce the risk of complications in major elective surgery with

**IMPACT** Advanced Recovery<sup>®</sup>  
Immunonutrition Drink

Major surgery places unique nutritional demands on the body. IMPACT<sup>®</sup> formulas contain a unique blend of supplemental arginine, fish oil and nucleotides shown to improve immune response in major elective surgery patients<sup>1-3</sup>.

- Meets Surgical Nutrition Consensus Recommendations\* for preoperative immunonutrition<sup>4</sup>
- Contains immune-modulating nutrients supported perioperatively by the 2016 Critical Care Nutrition Guidelines<sup>5\*\*</sup>
- Meets Strong for Surgery<sup>®</sup> criteria for evidence-based immune modulating supplemental nutrition<sup>6</sup>
- Successfully used in conjunction with Enhanced Recovery After Surgery (ERAS<sup>®</sup>) protocols<sup>7-9</sup>
